

Geography

We will be learning about rivers, including studying The Ganges and The River Tamar.

P.E.

During the term we will moving to increase our stamina and heart rate in a variety of ways. We will be playing football on the field, when the weather allows, as well as learning some yoga moves.

Art

Our artwork will be based on Typography (the visual art of creating and arranging letters and words on a page to help communicate ideas or emotions, as well as Monotype art (exploring drawings/mark making in different ways).

History

We will be learning aspects of Ancient Greece, including democracy, education and buildings.

R.E.

We will be learning about Hinduism and Christianity.

P.S.H.E.

'Jigsaw' will lead us through the topics of 'Being Me in My World' and 'Celebrating Difference'.

D.T

We will be making cups of tea during D.T this term. We will be exploring tastes and smells we like and not like.

Music

We will be exploring a range of songs and thinking about the instruments used as well as the rhythm and style of the piece.

AUTUMN TERM IN PUFFINS CLASS!

Science

This term we will be learning about earth and space. We will be learning to describe the earth, moon and sun as spherical; name the planets of the solar system in order; explain how day and night occur and describe heliocentric and geocentric ideas about planetary movement.

ICT/computing

We will be learning about how we view web pages on the internet; how to use search technologies effectively; understand the use of web spiders and we will be learning about internet safety.

We follow what is required of us from the National Curriculum but how we get there changes throughout the term/year due to the nature of the school, the interests of the cohort and current matters.

English

We will be focussing on grammar and punctuation for the first part of the autumn term. We will then move onto writing non-chronological reports, diary recounts and character descriptions. We will also be building our spoken language and vocabulary skills through frequent book chat, discussions and by reading a range of high-quality texts, including 'Why the Whales Came' as our class guided reading book.

French

We will be learning all about ourselves, including our bodies, fashion and feelings.

Maths

This term we will be working on our understanding of place value and applying this to counting, calculating and solving problems. We will practice quick recall of known facts and use these to build efficient methods for the four main operations.
